

WEBSITE GO-LIVE PROGRESS REPORT

Migration complete | Member access in progress | DNS cutover pending

Prepared for the Taunet Nelel Committee

Report date: 01 August 2026 (Rev C - password reset & member rebroadcast update)

Organisation: Taunet Nelel Incorporated - Victoria

Prepared by: Taunet Nelel IT Team

Executive snapshot (1 August 2026)

- Public site + members portal live on Vercel + Supabase
- Preview: <https://taunetnelel.vercel.app>
- 540 member records imported; committee admin + member dashboard LIVE
- Password reset form FIXED (Choose a new password + Continue step)
- Resend email live from members@taunetnelel.org (not noreply@)
- Second-wave password emails: 100 members sent today (0 failures)
- Member notice PDF updated with apology for first-invite dead end
- DNS cutover NOT done - www.taunetnelel.org still on WordPress
- NEXT: finish remaining password emails + committee UAT + DNS

Motto: "Together We Stand, Divided We Fall."

1. Progress since last report

The migration of the public website is complete. Recent work focused on member login access: fixing the password-reset experience and re-sending usable password links after the first invite left some members at a dead end.

1.1 Password reset - FIXED

- Forgot password emails send via Resend API (reliable path)
- Members now land on a clear Choose a new password form
- New links use a Continue step so email scanners are less likely to burn the link
- If a link has expired, the same screen offers Email me a fresh reset link
- Supabase Email OTP expiration should be set to 86400 seconds (24 hours) under Authentication > Sign In / Providers > Email

1.2 Second-wave member emails (in progress)

- First invite: some members hit sign-in instead of a reset form - we apologise
- Member notice PDF updated with apology + clear steps (share on WhatsApp)
- File: docs/TAUNET-NELEL-MEMBER-PORTAL-INVITE-NOTICE.pdf
- Today: 100 fresh password emails sent successfully (From: members@taunetnelel.org)
- Remaining imported members still to receive the second-wave email

1.3 Site / portal improvements also delivered

- Mobile navigation improved (public site + admin)
- Home page Events card shows live upcoming / recent events from Supabase
- Committee Forgot password available on the Members auth Committee tab
- Vercel domains prepared for taunetnelel.org / www (cutover not started)

2. Already delivered (baseline)

2.1 Public website and platform

- Live clone: <https://taunetnelel.vercel.app>
- Public pages, forms, gallery, events, sponsors wired to Supabase
- WordPress kept online as rollback until after domain cutover

2.2 Members area

- Unified Members page: Sign in / Join / Committee tabs
- Dashboard, announcements, resources, profile save
- Welfare registration path working
- BuddyBoss social features intentionally deferred (not required for go-live)

2.3 Member records

Metric	Count / note
Member import rows loaded	540
Association only	205
Welfare only	22
Both association + welfare	313
Earlier Auth invites	Completed in batches (many already have Auth accounts)
Second-wave password emails	100 sent (1 Aug) - remainder pending

2.4 Committee admin

- Admin portal at /admin/ (PIN + committee email login path)
- Overview, events, sponsors, gallery, newsletter CSV, announcements
- Mobile admin navigation improved

3. Current systems map

System	URL / status
New public site (Vercel)	https://taunetnelel.vercel.app - LIVE preview
Current public WordPress	https://www.taunetnelel.org - still live (DNS not cut over)
New members area	taunetnelel.vercel.app/members/auth.html - LIVE
Committee admin	taunetnelel.vercel.app/admin/ - LIVE
Member password email	Resend from members@taunetnelel.org - LIVE
BuddyBoss portal (old)	https://portal.taunetnelel.org - not the new primary
ClientClub / GHL portal	https://members.taunetnelel.org - legacy
Supabase	Connected - forms, auth, members, events, sponsors, newsletter

4. Remaining before go-live

Finish these before pointing www.taunetnelel.org at Vercel.

Item	Status	Owner note
Second-wave password emails	IN PROGRESS	100 done; send remaining members; share invite notice on WhatsApp
Email deliverability	Watch	Use members@ ; ask members to mark Not spam; strengthen DMARC when DNS allows
Committee UAT sign-off	NEXT	Checklist PDF: docs/TAUNET-NELEL-COMMITTEE-UAT-CHECKLIST.pdf
Online payments	Not done	Membership / welfare / event fees still offline or external for launch
BuddyBoss social rebuild	Deferred	Not required for go-live
Marketing newsletter sends	Optional	Signups captured; export CSV when ready
DNS cutover	Last step	Point www / apex to Vercel after UAT sign-off (guide: GO-LIVE-DNS.md)
Retire WordPress / old portals	After go-live	Keep 2-4 weeks rollback window

5. Recommended sequence (from here)

Step 1 - Finish member password access (NOW)

- Share TAUNET-NELEL-MEMBER-PORTAL-INVITE-NOTICE.pdf on WhatsApp
- Send remaining second-wave password emails (same Resend path)
- Spot-check: open NEW email > Continue > Choose a new password > sign in
- Set Supabase Email OTP expiration to 86400 (24 hours) if not already done

Step 2 - Committee UAT sign-off

- Complete UAT checklist (admin, events, gallery, business hub, member login)
- Confirm ordinary members can sign in and open the dashboard
- Written approval before any DNS change

Step 3 - Payments decision

- Agree payment provider path, or keep bank transfer for launch
- Fees already shown on membership / welfare pages

Step 4 - Domain cutover

- Follow docs/supabase/GO-LIVE-DNS.md
- Point www.taunetnelel.org (and apex) to Vercel
- Keep Outlook mail MX and Resend DNS records intact

Step 5 - Stabilise then decommission

- Monitor inbox / spam feedback for 1-2 weeks
- Retire WordPress public hosting when stable
- Retire BuddyBoss / ClientClub only after members have adopted the new portal

6. Message for members (summary)

Portal emails come from members@taunetnelel.org. Please ignore the first invite if it did not show a password form. Use only the NEW password email, open it from Inbox (not Spam), tap Continue, then Choose a new password. Old website passwords will not work. Help: info@taunetnelel.org.

Committee decision requested

- 1) Note progress: password reset fixed; 100 second-wave emails sent; public site and portal remain on Vercel preview.
- 2) Approve finishing the remaining password emails and WhatsApp notice.
- 3) Approve committee UAT, then DNS cutover only after written sign-off (www.taunetnelel.org stays on WordPress until then).
